relation will not be visible given the dependency of performance of the Company on other external factors.

F. Comparison of the remuneration of the Key Managerial Personnel against the performance of Your Company:

Details of month wise highs and lows of the price of the shares of the company on the BSE and the volumes traded are given in the Report on Corporate Governance, forming a part of this Annual Report.

H. Comparison of average increase in salary of employees other than the key managerial personnel and the percentage increase in the key managerial remunerations:

MANAGEMENT DISCUSSION & ANALYSIS REPORT

GENERAL INFORMATION ABOUT THE COMPANY

The company is engaged in the business of manufacturing of various APIs (Active Pharma Ingredients) and drug intermediates. It has built up a reputation as a manufacturer of "high quality" products and is known for its ethical dealings in business. The company supplies its products to leading pharmaceutical companies of India. The products are also being exported to various countries across the world.

NATURE OF THE INDUSTRY

The Indian API industry has been facing a challenging business environment for last couple of decades. With opening up of the Indian markets and signing of the WTO arrangement, the imported APIs and Intermediates became available at a very competitive price. This impacted the indigenous API and Intermediates manufacturers, who could not compete with the imported pricing. The Indian API industry has also been affected by stringent pollution control norms. Presently, almost 60-70% of total APIs consumed in India are imported. Over a period of time, the manufacturing capabilities & capacities for APIs in India has gone down. However, the present Govt. has recognized the importance of reducing dependence on China for APIs and has affirmed its commitment to encourage domestic API industry by introducing special measures for its development.

OPPORTUNITY AND THREAT:

A couple of years back, the Government of India amended the Schedule M of the Drugs and Cosmetics Act, 1940, in an effort to bring the nation's pharmaceutical quality standards up to par with global standards. The Schedule M prescribes the Good Manufacturing Practices (GMP) and requirements of premises, plant, and equipment for pharmaceutical products.

The upgradation to Revised Schedule M is a major challenge and threat to the company. The Company is carrying out a major renovation of its manufacturing facility to meet the requirements of the Revised Schedule M. The project will involve dismantling of some old production areas, construction of new buildings, purchase and installation of many new equipment, utilities etc. There will be challenges in terms of availability of knowledge resources, skilled manpower and funds. On account of these regulatory changes, the present business environment is quite challenging and uncertain. Further, the Company will have to raise funds from banks / other financial institution to part finance this upgradation project.

However, once the facility is upgraded as per the Revised Schedule M, the Company would also be able to get a WHO-GMP certification. This would allow the Company the opportunity to market its products to more countries,

especially the semi-regulated and regulated countries. The Company would also be able to manufacture newer products in the upgraded facility. This would open up many opportunities to the Company and fuel its growth.

FUTURE OUTLOOK:

The management's opinion on the future outlook for the Company is given under the Directors' Report forming part of the Annual Report of the company.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company has adequate and effective internal controls to provide reasonable assurance on achievement of its operational, compliance and reporting objectives.

The management's view on the business operations and financial performance of the company, including export performance and earnings, is given under the Directors' Report forming part of the Annual Report of the company.

MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED:

The Company's operations are managed by technically and educationally qualified staff at all levels, who in turn are guided and supervised by the Directors of the Company.
